Title: Collaborative TCP Sequence Number Inference Attack: How to Crack Sequence Number Under a Second [1]

This paper sumerises multiple methods for hyjacking a TCP client session.

Title: Network security via reverse engineering of TCP code: vulnerability analysis and proposed solutions [2]

hi

Title: Cross-path Inference Attacks on Multipath TCP [3]

hi

Title: Ancillary Impacts of Multipath TCP on Current and Future Network Security [4]

hi

Title: An Empirical Study of TCP Vulnerabilities in Critical Power System Devices [5]

hi

Title: A Survey on Future Internet Security Architectures [6]
